Global searches for “Webinar”

- hit an all-time high, reached the highest point in past 12 months
- 4 times compare to “Normal state”

Use **Webinar** to

- Support our communities deal with the disruption caused by COVID-19 and give them leads regardless of physically restrictions.
- Turn your event digital, keep the relationship and engagement with our exhibitors and buyers

Types of Webinar

The main types of approach, depends on the needs of customer/event

Single Webinar

An one-off event, usually based around a topic like an industry update, knowledge sharing, with sponsor who receive the leads. The most important is to have a clear objective that meet the business interest.

Sales opportunities

- Sponsored webinar (single or multiple sponsor(s))
- Webinar hosted by IM and delivered by customer

Small Meetups

Such as panels, advisory boards. Example like the cancellation of any Awards, use it as an alternative to announce the winners

Sales opportunities

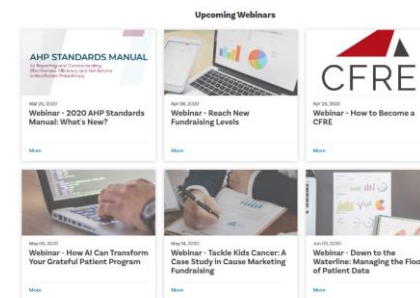

- Banner Ad on webinar promotional materials

Webinar solution

- Microsoft Teams / zoom

Webinar Series

More than 1 webinar with similar theme, it can be a training series, a number of webinar with linked topics etc., the aim is to establish credibility on a specific topic and keep a group of loyal followers. E.g. Webinar Week

Sales opportunities

- Sponsored webinar series
- Webinar series with IM

Webinar + Other contents

Combine webinar with other contents (e.g. videos, whitepapers) to reinforce the image of the customers/ products from the webinar, target to have an all-rounded promotion and reach out to as many audiences as possible

Sales opportunities

- Webinar hosted by IM and delivered by customer with other products (e.g. web content, publications, blogs etc.)

Course Title – Oral Systemic Practice – From Theory To Implementation

Webinar Guest Presenter: Dr. Tom Larkin DDS

Thursday March 26th 2020 – Time: 8:00-9:00 PM EST

Free Registration – [CLICK HERE TO REGISTER](#)

After registering, you will receive a confirmation email containing information about joining the webinar.

Webinar Summary

The conversation around the oral systemic connection has been very popular the past few years but very few practices have been able to convert to a wellness based model. Dr Larkin describes how he has guided both startups and acquisitions to a more wellness based model.

Biography

Dr Larkin is a popular podcaster and co host of the podcast hygiene superstar. He has most recently founded POW, (Proactive Oral Wellness) a coaching and implementation web site for the most advanced approaches in preventive dentistry. He currently is working with several local startups perfecting his oral-systemic practice protocol and helping develop innovative strategies to promote sustained practice growth and independence.

His newest website oralsystemicmastery.com provides live training events that boost the awareness of the newest technologies that are re-framing the practice of dental hygiene.

Live Webinar

Live Webinars / 'virtual keynote' that are developed based on customer preference of the subject matter; they provide all content and speakers, while we provides a facilitator, related advertising and marketing campaign, and the webinar production. Webinar typically includes live-stream video, slides, audio, and polls.

Exhibitors receive exclusive branding throughout the campaign and leads from all who have registered for the webinar.

What're included (Basic)

- 1 co-branded 1-hour live stream with rehearsal and facilitation – typically 45-minute presentation and 15-minute live Q&A
- 2-4 emails promoting the webinar to the targeted audiences, both from customer's target list and event database
- Post-webinar deliverables:

Customer demand for email, chat and mobile customer service is on the rise, but many organisations are struggling to offer it or don't offer it effectively, largely down to cost and capability. What do we do about the increase in text-based interaction? What are the practical ways to make email and chat cost effective and responsive? and how do we 'wow' customers with mobile customer service?

Join Lara Doyle (Community Manager, CallCentre.co.uk), Nicola Millard (Head of Customer Insight and Futures, BT) and Paul White (CEO, mplsystems) to gain a greater understanding of current operational practices and challenges when it comes to text-based customer service, to hear about future trends and what these could mean for the business and to find out how technology can help to support the organisation with the new challenges that mobile is bringing.

Topics to be discussed

- Best practice for email and chat in the contact centre today
- Practical ways to make email and chat more cost effective and responsive
- Improving multilingual text based customer service
- Predictions for the growth of text versus voice based customer service
- Implications for the contact centre
- How to migrate the contact centre to support mobile chat
- Managing mobile chat

Maximise Energy Density with High Efficiency Technologies

DATE: 27th February 2020
START TIME: 3:00 PM IST
DURATION: 60 MINUTES
WEBINAR HIGHLIGHTS:

With the Governments' vision of 175 GW by the year 2022 and the changing market scenarios, the need of high efficiency panels are the need of the hour.

The paucity of feasible land, challenges in procuring the land & increased land prices have led to innovations in Solar module technologies. High Efficiency Technologies helps you in improving the energy density.

Key benefit of higher-efficiency modules is extra power per square-meter area. Its high efficient cells deliver more power over a longer period of time. Advanced production methods lead to a more dependable product. In addition to above benefit, there is a reduction in installation costs due to fewer balance-of-system components. The other costs such as labor, land and inverters, are not going down over time. So, the most significant lever to reduce costs is to increase the efficiency of the panels.

We will also be speaking on how Warranty insurance, Standalone module project cover & PR guarantee cover, can protect your investment in addition to enhancing bankability of your project especially with new module technology.

Jinko Solar as a Global leading Technology leader on Solar PV Technologies with 55 GW+ solar panels delivered & 15 GW Solar module manufacturing capacity always prioritize the focus in creating new path ways to enhance energy density with High Efficiency Solar PV Technologies.

Event postponed? Don't miss out on quality leads

Postponing your presence at an event doesn't mean you have to compromise on leads. Over the past 90 days, online searches for webinars have accelerated as travel bans come into place and remote working becomes the norm. Through sponsoring one of our webinars, you'll have the opportunity to be seen as a thought leader, gain brand visibility and generate qualified leads from the CPhI database.

Sponsorship package includes:

- ✓ Your branding will be part of our marketing campaign, including a minimum of 3 emails to the CPhI database and via social media channels
- ✓ Host one or two content assets in the webinar environment, including whitepapers or other content you want attendees to access.
- ✓ Your logo displayed throughout the webinar
- ✓ Opportunity to deliver a 10 minute product, company or solution pitch after the editorial content, and to join the Q&A if appropriate
- ✓ Sponsored article on Global Pharma Insights, where the webinar will be hosted for 12 months.
- ✓ Mp4 video will be made available for your own marketing channels.
- ✓ Receive all the qualified and compliant leads from all who register for the webinar as well as detailed analytics included in post-event lead reporting.

● ● How to Setup

How to Setup (Event Team)

Sales Pipeline (Sales team)

Fulfilment Process (Marketing, Data, Sales)

Content Review

Content review can start with Preparation. It includes Speakers confirmation, Webinar contents review and rundown of the webinar, a deadline of materials submission is strongly recommended to set

Rehearsal

All involved parties must attend, run the webinar at least once to make sure the rundown is good. It is strongly recommended to train the speakers and panellists to use the platform before the rehearsal

Post-webinar Follow-up

Confirm the communications to attendees and absentees and send to them. Apart from thank you, resources like webinar recording, Q&A sharing can also be provided

Preparation

- Confirm the target audiences segments
- all promotion materials are ready

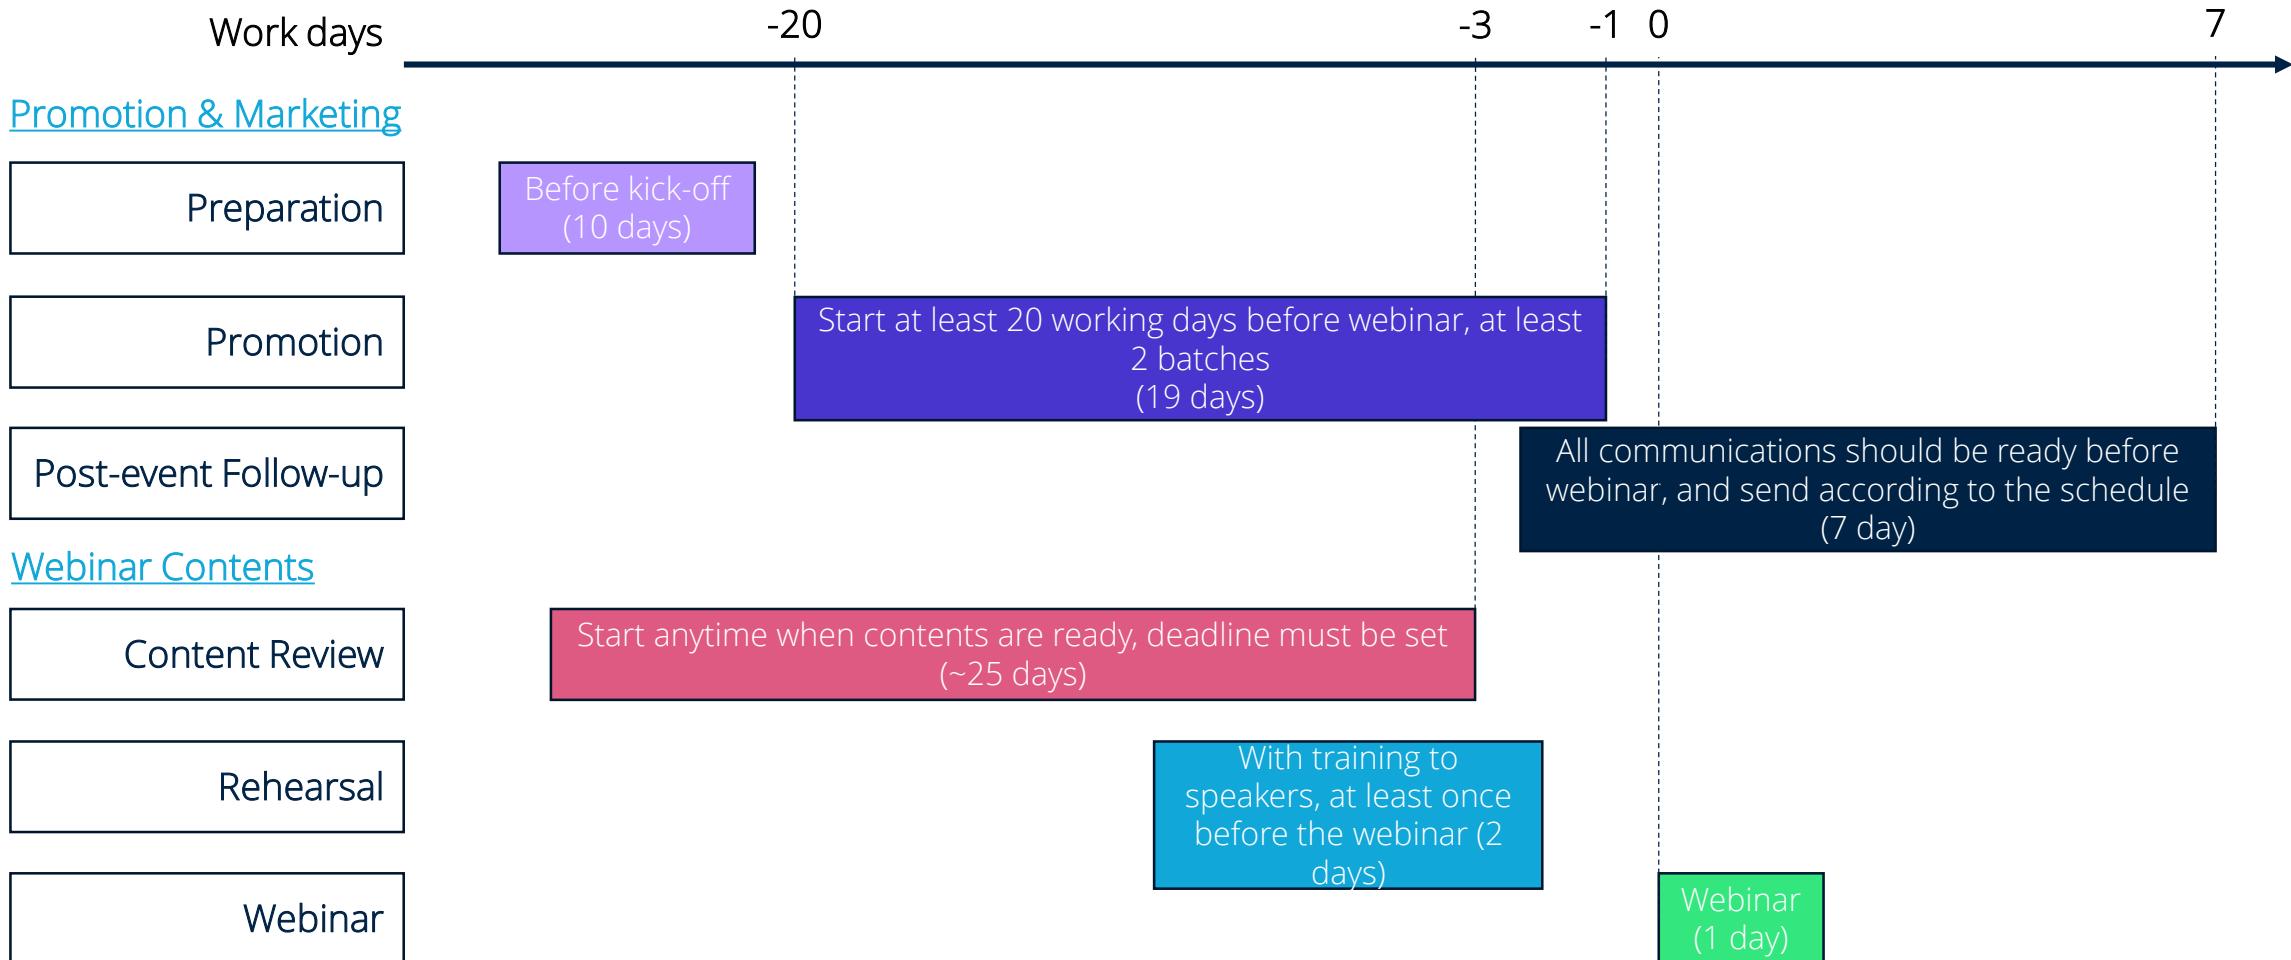

Promotion

Promotion on different channels such as e-blast, social media etc., need to [review on the quality and quantity of the registrants](#) and make necessary change in second round of promotion. Remind the registrants and make sure they know how to view the webinar

Webinar

Get prepared at least 1 hour before the start, make sure all speakers and panellists are ready, final check on all materials and webinar setting. Follow the rundown to make sure all the things will be happened as planned

Promotion & Marketing

Important Guidelines

Campaign Basics

- All materials must be submitted on time or webinar promotion will be affected.
- Additional charge for translation. Translation can be done by freelance translators.
- Translated materials will not be processed without the customer's approval.
- Promotional eDM can be sent to both exhibitor and visitor database. [Encourage customer to provide their own target database such that the resulting leads can be graded and managed at once.](#)
- NO guarantee on the number of leads generated through the campaign.

Data Principles

DO

- ✓ eDM can be sent to relevant exhibitors and visitors as targets.
- ✓ **Quality Over Quantity.** Help your customer select the right data segments based on availability of quality data in our database.
- ✓ Opt-outs and delivery records must be centrally managed in DataSource timely.
- ✓ Data selection and email delivery should be within 7 days

DON'T

- ✗ DON'T send more than 2 webinar eDMs to the same email address per week.
- ✗ DON'T share email target list with your customer. Only share the leads captured via the campaign with customer.
- ✗ DON'T guarantee number of leads, or the level or timing of open, clicks and any other conversion measurements.

Best Practice & Tips: Promotion & Marketing

Webinar Title

- Be brief, yet descriptive enough to inform your audience about the topic of your webinar is
- Keep under 8 words if possible
- Include the keywords

Abstract

- Let audiences know what are we solving/ covering
- Let audiences know why we are so important
 - Who should join
 - What to gain if join
- Provide a lead-in, such as "In this webinar you will learn..."

Email Promotion

- Start promotion at least 4 weeks before the webinar
- A Clear an Strong subject and Call-to-action on the email
- Mobile responsive email design
- Review the quantity and quality of registrants at least once during the recruitment period

Best Practice & Tips: Webinar Operations

Host

- Do not host the webinar on Monday
- Use a stable/ wired internet connection
- Connect to landline phone as a backup
- Check all settings in Practice mode
- Use a large screen
- Add your support team as panelist to handle the Q&A

All speakers

- Use a headset, mute your microphone when not speaking
- Test your audio and video in practice mode
- Position your webcam at eye level to make good eye contact
- Check “Optimise for video” and “Share computer sound” if you are playing video
- Share desktop instead of sharing different app individually for smoother application transition

Attendee

- Use a stable/ wired internet connection
- Install app/ web application to access to all features
- Join in quiet areas
- Add one of the support team members as attendee to monitor the quality of the webinar from audience side

Tips from CPhI NA for selling webinars to exhibitors

- Don't assume your customers only want events. You don't know what your clients want until you ask, so try and get this in front of as many people as possible
- Leverage your existing relationships, especially the long-standing ones. Now is the time for us to work with our most trusted customers and find out how we can support them. Just because they haven't done digital before doesn't mean they won't be open to it.
- Flexibility is key. Content-solutions need a more consultative approach. Although we created initial packages, we're flexible about how they are delivered. Some clients just want to put their logo on it and get leads, others want to contribute more to the content itself.

- Attentiveness in webinar
- Selections in Polling
- Questions asked
- Contact details

Security Concern with Zoom

Zoom-bombing

- Zoom meeting interrupted by strangers and they shared/ drew some inappropriate messages/ images in the meeting
- Only host and panelists in the webinar have the rights to share and draw anything. Attendees' rights are limited to Q&A and Chat to panelists

Sharing data with Facebook

- Zoom iOS app notifies Facebook when the user opens the app, details on the user's device are sent to Facebook too
- Latest version of iOS application fixed the issue

Sharing users' data, including encryption keys with China

- Route through China was a mistake and that it was being addressed

Zoom's weak end-to-end encryption

- Fixing

Attacker able to steal Windows login name and password

- Zoom converts Windows networking UNC (Universal Naming Convention) paths into clickable links in Chat, if a user clicks on such a link, Windows will leak the user's Windows login name and password.
- Chat can be disabled in webinar, only Host and Panelist can input messages; in some cases, participants are allowed to send messages to the panelists
- Go to Computer Configuration -> Windows Settings -> Security Settings -> Local Policies -> Security Options -> Network security: Restrict NTLM: Outgoing NTLM traffic to remote servers and set to "Deny all"
